## **Bolaños Brothers Endorse Joe Moody** ***~Denounce Margo Smear Campaign~***

EL PASO -- The Bolaños Brothers- Rick, Louis, Ben, and Bill- joined together today to announce their support for Joe Moody, Democratic candidate for House District 78. In doing so, the Bolaños Brothers condemned the smear tactics Dee Margo has stooped to using over the past two weeks. "Joe Moody is a man of integrity," said Rick Bolaños. "Joe comes from a long line of veterans, from those who have served their country. In that same vein, Joe decided to serve El Paso by becoming a prosecutor. Joe's opponent, Dee Margo, has decided to fling mud at Joe and his family over the past few weeks. This is a move by a man who knows his beliefs and campaign, backed by Austin special interests, are out of touch with El Paso."

Born in Texas to immigrant parents, the Bolaños Brothers were taught from the beginning the importance of service to their country. Each brother joined the Armed Forces: Louis, the Navy; Ben, the Marine Corps; Bill, the Army Green Berets; and Rick, the Army. They are the only family in the United States to have four brothers serve in Vietnam at the same time, three of them were in actual combat together. The Bolaños Brothers were cited for their patriotism by President Lyndon Johnson, and in 2004, the Texas Legislature passed a resolution honoring their military service and their valiant heroism. The Bolaños Brothers are nationally recognized having served as Veterans chairs for the campaigns of Governor Bill Richardson and Senator Hillary Clinton.

"I am proud to have earned the Bolaños Brothers' support of my campaign," stated Joe Moody. "Their record of service to our nation is unparalleled. Rick, Louis, Ben, and Bill know where I stand and trust that I am the right choice to help improve the quality of life for our nation's veterans who have so honorably served our country. The Bolaños brothers, like the people of El Paso, know that personal attacks and divisive campaign tactics from a candidate who will say and do anything to win, won't magically produce any better results for our nation's veterans. It's time to get to the real work, and I'll roll up my sleeves to make that change happen for El Paso.
